

Brownie Clean Hands Song
(sung to the tune of Happy Birthday)

Wash your hands every day
When you eat, work or play
Scrub with soap and hot water
To clean the dirt all away.

Remember!

Scrub your hands for 15 - 30 seconds with soap and water.

Always wash your hands:

- Before eating
- Before handling food
- When you cough or sneeze
- After handling something that is dirty or dusty
- After going to the bathroom
